

LAW, CULTURE + THE HUMANITIES

ABSENCE THE PRESENT AND THE PAST

2023 Conference

University of Toronto School of Law June 22 - 23, 2023

WELCOME FROM THE LCH PRESIDENT

Welcome to the 25th annual meeting of the Association for the Study of Law, Culture, and the Humanities! We are delighted to come together to celebrate a quarter century of intellectual community, and we look forward to the stimulating collegiality that marks our gatherings year after year.

This year's theme – Absence, Presence, and the Past – invites us to consider both loss and potential, being without and being together. Still emerging from the shadow of covid, experiencing political and legal instabilities across the globe, facing a technological and climatological landscape increasingly hostile to

rich human interconnection, what can we as law and humanities scholars contribute to the generation of social meaning and remediation? As I look across the broad range of this conference's conversations and interventions, I see even more clearly the relevance and import of interdisciplinary legal scholarship to critical contemporary concerns. At this meeting and in our scholarly lives, we bring our collective minds to bear on crucial debates about global terrains of justice and injustice; about relations among the social, the political, and the state; about connections between word and act, archival and prefigural, history and future; indeed about the very means, within or around or outside of law, by which we can imagine continued human flourishing. Our questions and insights matter, and deserve broad attention.

I want to extend my deepest thanks to our University of Toronto hosts Simon Stern and Cheryl Suzack, our program committee chairs Patricio Boyer and Ravit Reichman, and our amazing LCH coordinator Stephanie Orion for their enthusiasm, generosity, and tireless effort in putting together this exciting conference. I invite you to explore the fullness of this year's program, to connect with friends and colleagues in rich colloquy, and to join us in celebrating the creative scholarly embrace of our LCH community.

2023 CONFERENCE: ABSENCE, THE PRESENT AND THE PAST

The last few years have been marked by palpable absence: the absence of face-to-face encounters, shared meals, shared lives; the absence of in-person study, of spontaneous meetings in hallways and coffee shops — a seemingly interminable stretch of missed experiences and encounters. As we come back together and restart our offline lives, we carry the absences and missed opportunities of the recent pandemic with us. Absence signals both a void and a clearing: a call for us to be present once more to ourselves and each other. In some instances, we know what we have missed; at other times, we find ourselves surprised and undone by what we have not realized has been missing all this time. To dwell on this absence is not only to live in a state of lament or regret; it is also to imagine the possibilities that arise when we attend closely to what has been missing.

In this spirit of absence as loss and potential, we invite papers from across the disciplines that consider law in relation to absence. How might we conceive of law in the absence of justice, or imagine jurisprudence in the absence of precedent? What juridical potential arises in a moment of crisis and deprivation? What does law miss in entering these moments—and how might law's missed encounters bring into relief the gaps in the interstices of contemporary culture? What does law miss—and what does it engage—when it serves as a source of social meaning and remediation?
